

All Steel Radial Dump Truck Tyre

The quality of production is the lifeline of enterprise,our TBR program also makes great development on technology and new production research.

All steel radial dump truck tyre have been sold to over 80 countries and regions basing on its perfect quality and excellent after-sale service system.

We normally believe that one's character decides products' quality, the details decides products' high-quality ,while using the REALISTIC,EFFICIENT AND INNOVATIVE staff spirit for Cheap price fast delivery All Steel Radial Dump Truck Tyre, We have now confident that we can easily offer the premium quality products and solutions at a resonable price, good after-sales services into the buyers. And we're going to produce a dazzling future. Cheap price fast delivery All Steel Radial Dump Truck Tyre, We always stick to the tenet of "sincerity, high quality, high efficiency, innovation". With years of efforts, we've got established friendly and stable business relationships with worldwide customers. We welcome any of your inquiries and concerns for our solutions, and we're sure that we are going to offer just what you want, as we always believe that your satisfaction is our success.

Product Introduction

All steel radial dump truck tyreare equipped with advanced manufacturing equipment from smelting, extrusion, cutting, molding and vulcanization.

Various raw materials such as rubber, steel wire and carbon black are purchased only from top suppliers, which effectively guarantees the stable quality of the products.

Product Parameter (Specification)

SIZE	PR	Load Index	Speed Range	Standard Rim	Pressure (kpa)	Max Load (S/D) kg	Tread Depth (mm)
11.00R20	18PR	152/149	D	8.0	930	3550/3250	23
12.00R20	20PR	156/153	D	8.5	900	4000/3650	24

Product Feature And Application

All steel radial dump truck tyre specially designed for drive position of dump trucks and trucks on mines,construction sites and other bad road conditions.

Product Details

Transverse large block pattern,provides continuous strong grip and driving force.

Thickened groove bottom design effectively reduces the piercing probability of pattern groove bottom.

Opened tire shoulder design improves heat dissipation and sludge discharge capacity.

The tread adopts high cutting resistant formula and through base glue design, excellent heat dissipation performance and high overall service life.

Product Qualification

Pre-treatment workshop

Molding workshop

Vulcanization workshop
